5.0 POLICIES

5.1 Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that:

’If regard is to be had to the Development Plan for the purpose of any determination to be made under the Planning Acts, the determination must be made in accordance with the Plan unless material considerations indicate otherwise.’

5.2 The Government has issued the National Planning Policy Framework [NPPF] which consolidates national planning policy and is a material consideration in the determination of this application.

5.3 In this instance, the Development Plan comprises The London Plan 2016 [LP] and the Local Development Framework [LDF]. The LDF comprises The Harrow Core Strategy 2012 [CS], Harrow and Wealdstone Area Action Plan 2013 [AAP], the Development Management Policies Local Plan 2013 [DMP], the Site Allocations Local Plan [SALP] 2013 and Harrow Local Area Map 2013 [LAP].

5.4 A full list of all the policies used in the consideration of this application is provided as Informative 1 in Appendix 1 of this report.

6.0 ASSESSMENT

6.1 The main issues are;

Principle of the Development & Regeneration
Character and Appearance of the Area
Residential Amenity
Traffic, Parking and Drainage
6.2 Principle of Development

6.2.1 The London Plan (2016) policy 3.18B states that “Development proposals which enhance education and skills provision will be supported, including new build, expansion of existing facilities or change of use to educational purposes. Those which address the current projected shortage of primary school places will be particularly encouraged. Proposals which result in the net loss of education facilities should be resisted, unless it can be demonstrated that there is no ongoing or future demand.”

6.2.2 Core policy CS1 of the Harrow Core Strategy (2012) states that: “The development or expansion of physical or social infrastructure will be permitted where it is needed to serve existing and proposed development, or required to meet projected future requirements”.

6.2.3 Policy DM 46 of the Harrow Development Management Policies Local Plan supports proposals for the provision of new education facilities provided that they are (a) located in the community which they are intended to serve; (b) subject to them being located in an area of good public transport accessibility and would not result in any adverse impacts on residential amenity or highway safety.

6.2.4 As such, subject to details covered below, it is considered that the proposed extension to the school and other alterations would be consistent with the Development Plan policies for the area.

Regeneration

6.2.5 It is considered that the development regenerates the use of existing vacant Council accommodation to maintain a crucial educational service whilst Pinnerwood School remains out of action for urgent repairs. The continued education of the Borough’s children has positive future regenerative impacts.

6.3 Character and Appearance of the Area

6.3.1 Policy DM1 of the DMP gives advice that “all development proposals must achieve a high standard of design and layout. Proposals which fail to achieve a high standard of design and layout, or which are detrimental to local character and appearance, will be resisted.” This is in line with the design objectives of policy 7.4B of the London Plan and Core policy CS1.B of the Core Strategy.

6.3.2 The development largely relates to the use of the existing civic building 3 to 6. No external alterations have been undertaken as part of the project to re-accommodate Pinnerwood School on site. Therefore the character of the civic centre site is maintained.

6.3.3 The subject application also seeks retrospective permission for two single storey temporary building which are in use to provide ancillary kitchen facilities whilst Pinnerwood School is using the Civic Centre site.
6.3.4 The temporary buildings have limited architectural merits. However, they are considered to be acceptable in terms of appearance within the context of the site. Given the need to maintain the educational services for the Borough, it is considered that the temporary period for the modular buildings is satisfactory. Nevertheless in the interests of the character and appearance of the locality, a condition is recommended to ensure the temporary buildings are removed following the return of Pinnerwood School to their original site in 2018.

6.3.5 Overall, it is considered that the development is acceptable and in keeping with the character and appearance of the area. As such, the development complies with policies 7.4B and 7.6B of The London Plan (2016) core policy CS1 B of the Harrow Core Strategy (2012) and policy DM1 of the Harrow Development Management Polices Local Plan (2013).

Residential Amenity

6.3.6 The London Plan policy 7.6B states that buildings and structures should not cause unacceptable harm to the amenity of surrounding land and buildings, particularly residential buildings, in relation to privacy and overshadowing. Policy DM1 (sub-sections C and D) of the Development Management Policies Local Plan (2013) requires all development to achieve a high standard of privacy and amenity. The adopted SPD ‘Residential Design Guide’ elaborates upon policy DM1 with detailed guidance aimed at balancing the right of a landowner to develop their property with the need to protect adjoining occupiers from development that would unduly harm their residential amenities.

6.3.7 The closest residential property lies to the north on Marlborough Hill and is approximately 100m away from the civic buildings, and this distance is considered more than adequate to negate any harm to neighbouring residential properties.

6.3.8 Civic 3 to 6 are positioned to the north of Harrow’s Civic Centre 1 and former Library building, and whilst the intensity of use of the site has increased, this is not considered to result in any harmful levels of disturbance to the workers of those buildings. Furthermore, the use of civic 3 – 6 by Pinnerwood School has been in use since April 2017 with no reports of disturbance to neighbouring residential occupiers. It is also noted that the site has been previously used for D1 (educational purposes) whilst the redevelopment of Marlborough school took place in 2014/2015.

6.4 Traffic & Parking

6.4.1 Policies DM1 and DM42 of the DMP give advice that developments should make adequate provision for parking and safe access to and within the site and not lead to any material increase in substandard vehicular access.
6.4.2 The London Plan and the adopted Core Strategy encourage and advocate sustainable modes of travel and requires that each development should be assessed on its respective merits and requirements, in terms of the level of parking spaces to be provided.

6.4.3 The development results in a small increase in the intensity of use of the site. However, such an increase has not resulted in detrimental impacts in terms of parking or highways safety, particularly as the use of the site as a school takes place between the hours of 9am to 5pm and the site will only be in education use for the remainder of the school year.

6.4.4 In addition to the above, there is a travel agreement in place between Pinnerwood School and the Council in terms of pick up and drops offs. There is a parking management strategy within the civic centre site for the parking of dedicated coaches which ferry pupils between Pinner Green and the temporary school at civic centre.

6.4.5 The Council’s Highway’s team has not objected to the development in light of the above arrangements. Any disruption as part of the pick and drop offs is temporary and will cease when Pinnerwood School return to site in early 2018.

7.0 CONCLUSION AND REASONS FOR APPROVAL

7.1 The development makes use of redundant council buildings whilst maintaining the borough’s educational needs. Furthermore, it is considered that the development and associated use does not have any harmful impacts on the character of the area or neighbouring residential amenity. Accordingly, the development is recommended for grant.
